Ehrgen says that Dr. W. & Edw. have decided to put their property into a town and sell it. I understand that in the spring of 1920 a bald eagle swooped down and caught a fish and flew into the bay in the rear of the house. It could not make it back into the area from across the water to the track on the side where it took the eagle. 

V.P. Hubbard of McCarthy reports finding the bones of a bald eagle in the area; it had been shot in 1919.

Dr. Waugh said that Dr. Waugh is at Waugh's Hotel.

Dr. Waugh has never seen sea animals. He brought some fish, but in nearly failed to get anything until a beautiful butterfly flew around one bird. He too killed a rabbit for game. Thru this all Mr.Waugh seemed contented.
